

Md Shoeb Salehin Azam Khan

Jr. Front End Web Developer

Tikatuli, Dhaka, Bangladesh. Contact: +8801717085020

Email: salehin.ay@gmail.com - [LinkedIn](#) - [GitHub](#)

Career Objective

To leverage my skills in front-end web development, particularly in React and JavaScript, to contribute to innovative projects and collaborate with a dynamic team.

Projects

Hangout

Live Link: <https://atwelve-hangout.web.app>

GitHub Link: [[Client](#)] | [[Server](#)]

Technology used: Tailwind, React, Node.js, MongoDB, Firebase, Tanstack Query, Express.js

Definition: A comprehensive, role-based Building Management System website offering secure user authentication, responsive design, efficient management of apartments, payments and announcements.

Features:

- Facilitates centralized management of apartment information, user agreements, and payments.
- Differentiates functionalities and access based on user roles (user, member, admin).
- Protects sensitive information using JWT tokens and environment variables for credentials.

Fabriccraft

Live Link: <https://aten-fabricraft.web.app>

GitHub Link: [[Client](#)] | [[Server](#)]

Technology used: React, Node.js, MongoDB, Tailwind, Firebase

Definition: A responsive Art & Craft store website offering secure user authentication, detailed item management, and a dynamic, customizable user experience.

Features:

- Product browsing and search
- Shopping cart and checkout
- Users can view details, update, and delete their added craft items.

Skills I acquired: Tailwind CSS, JavaScript, React, Node.js, MongoDB, Firebase, ExpressJS

Education : Bachelor of Commerce, National University, Bangladesh

Certifications and Course: Web Site Design and Web Applications Development, Bangladesh Computer Council
